

NAREX INDUSTRIAL MACHINERY L.L.C.

ROLL FORMING MACHINE FOR ROOFING PANEL MODEL: YX35-200-1000 PROFILE

PROFILE DRAWING:

MATERIAL:

Material Thickness : **0.3-0.6mm**Feeding material width : 1220mm

Applicable material : Galvanized Steel Sheet, PPGI with 245Mpa-350Mpa Yield Strength

P. O. Box No.: 23097, Sharjah, U.A.E | Main Office Tel. No. +971-6-5338277, Fax No.: +971-6-5332868 Branch Tel No.: +9716-5439350, | E-mail: narex@emirates.net.ae; narexind@eim.ae; www.narexuae.com

NAREX INDUSTRIAL MACHINERY L.L.C.

MACHINE COMPONENTS:

1) Manual Decoiler: one set

Un-powered, Manually control steel coil inner bore shrinkage and stop, Max Feeding width: 1000mm, coil ID range 508r

Capacity: Max. 5 Ton

2) Main machine

With feeding material guide, body frame made from H350 type steel by welding;

Sideboard thickness: 14mm

Rollers manufactured from 45# steel, CNC lathes, Heat Treatment, hard Chrome Coated with

thickness 0.04mm, surface with mirror treatment (for longer life and anti-rust); Shafts Diameter=\$\phi75mm\$, precision

machined

Motor driving, Gear/Sprocket transmission,

about 20-step to form

Main Motor=7.5KW, Frequency speed

control

Forming speed approx 15m/min

With manual precutter for easy operation and save material: The precutter is connected with PLC control system, PLC is calculating profile length within roll forming. Once material is required to change, PLC is calculating the length for total quantity and remind operator, production finishes and able to manual shearing material before roll forming so as to change material for new production. It is the advanced function and good for production to save material, no waste.

3) Hydraulic Cutting device:

Post cut, stop to cutting, Two pieces cutting blades, no blanking Hydraulic motor: 2.2KW Cutting pressure: 0-10Mpa

Cutting tool material: Cr12, Heat treatment

4) PLC Control System

Control the quantity and cutting length automatically

input the production data(production batch,pcs,length,etc.) on the touch screen ,it can finish the

production automatically.

Combined with: PLC, Inverter, Touch Screen(have English

version), Encoder, etc PLC: Delta brand (Taiwan)

Inverter: Shilin/Delta/Alpha brand (Taiwan) Touch Screen: WEINVIEW brand (Taiwan) Encoder: KOYO/Omron brand (Japan)

Cut-to-length tolerance ≤±2 mm

Control Voltage 24V
