About Company

Narex Industrial Tools & Equipments Trading Co. LLC,

Founded in 1994, distributes all types of industrial fabrication machinery, serving esteemed clients in-country, GCC, and Africa. Led by **Mr. Ahmed Shihada (MD)** and **Mr. Shihada Shihada (CEO)**, our three-decade journey has established us as top distributors, prioritizing client relationships, high-quality products, and efficient after-sales service.

Message From The CEO

S.SHIHADA Visionary leadership empowers growth, innovation, and sustainable success.

S.SHIHADA
THE CEO

Meet Our Products

CNC laser cutting

A CNC laser machine precisely cuts using a high-powered laser controlled by computer numerical code, offering high accuracy and efficiency for industrial and artistic applications.

Laser welding machine

A laser welding machine uses focused laser beams to join materials with high precision, offering strong, clean, and efficient welds.

Welding machines

(MIG) welding is an arc welding process that uses a continuous solid wire electrode heated and fed into the weld pool from a welding gun.

air Compressor & dryers

Air compressor machines convert power into pressurized air, enabling various pneumatic tools and applications.

Ducting

Industry ducting machines form and shape ducts for efficient ventilation and air distribution systems.

Roll forming

Industry roll forming machines shape metal sheets into consistent profiles for construction and manufacturing applications.

CNC PLASMA CUTTING

Industry CNC plasma cutting machines use high-temperature plasma torches, precisely cutting metal sheets based on programmed designs.

Meet Our Products

Steel fabrication

Steel fabrication machines cut, shape, and assemble steel structures and components, enhancing efficiency and precision in manufacturing and construction.

Engineering machine

Industry engineering machines design, build, and maintain complex systems, enhancing efficiency and precision in manufacturing processes.

Consumables/ spareparts

Industry consumable parts are replaceable components used in machinery, essential for maintaining optimal performance and efficiency.

Dies & tools

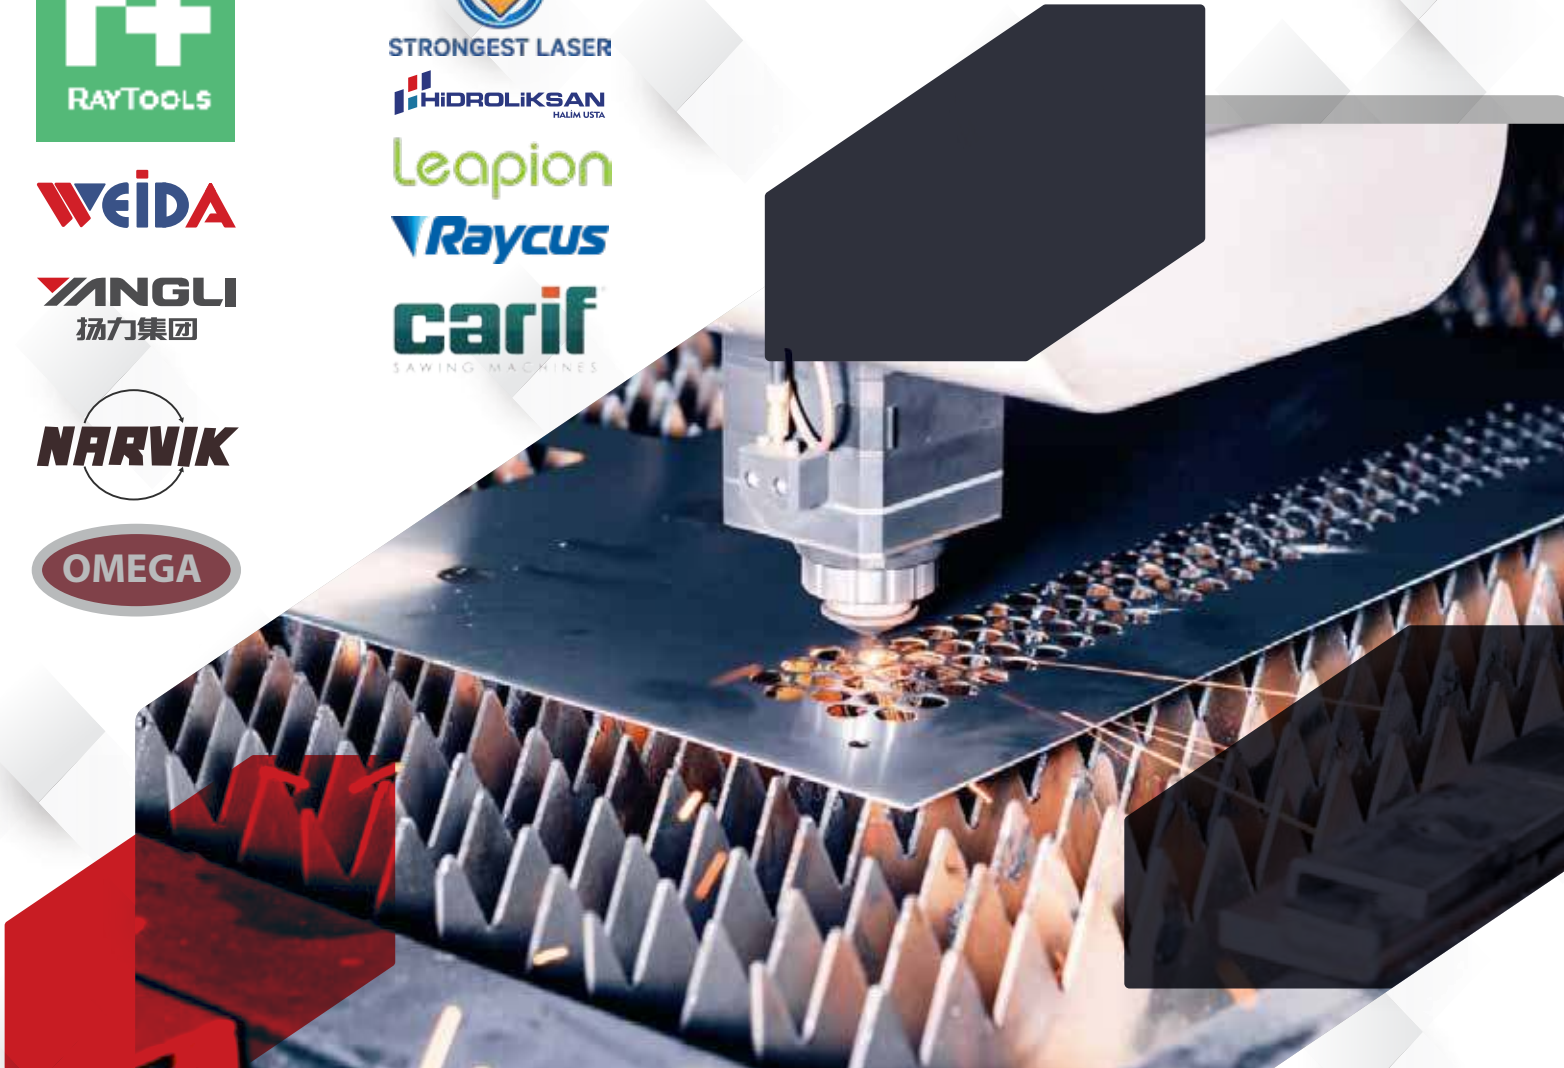

Press brake dies and tools shape metal sheets with precision, essential for bending operations in manufacturing.
