

Hypertherm®

Hypertherm cartridge: SmartSYNC or adapter 105A drag cutting

Part number: #428937

105 A drag cartridges are optimized for **cutting thicker metals up to 32 mm (1-1/4")**

thick. To maximize cartridge life and performance it is important to select the cartridge that is optimized for the workpiece you are cutting.

105 A drag cutting cartridges are compatible with:

- SmartSYNC® torches for the Powermax105 SYNC® systems
- Duramax® torches using a torch adapter for Powermax105® systems
