

SCISSORS MITER BANDSAW MODEL :S-230DM-TECNO

MACHINE DESCRIPTION:

The S-230DM-TECNO is a scissor-type miter bandsaw manufactured by JLH SAWS International, a major global producer of metal sawing machinery. It's designed for cutting metal stock (pipe, bar, profiles, etc.) at precise angles, including straight (90°) and angled cuts (commonly up to $\pm 45^\circ$ or $\pm 60^\circ$) using a bandsaw blade.

STANDARD ACCESSORIES:

- Exterior protection sheet metal
- Single valve feed control
- CE Electrical Safety
- LED Working Light
- Inverter
- Blade breakage detector
- Single vise Clamping
- Manual movable Guide arm
- One piece Saw Blade

TECHNICAL PARAMETER:

SCISSORS MITER BANDSAW	
Model No.	: S-230DM-TECNO
Brand Name	: JLH
Cutting Range 90degree round	: Ø230mm : Ø9in
Cutting Range 90 Degree flat (WXH)	: 310X230mm : 12.2x9 in
Cutting range 45 Degree round	: Ø210mm : Ø 8.3 in
Cutting range 45 Degree flat (WXH)	: 210X210mm : 8.3x8.3in
Cutting range 60 Degree round	: Ø140mm : Ø5.5in
Cutting range 60 Degree round Flat (WXH)	: 140mmx140mm : 5.5inx5.5 in
Smallest Size to be cut	: 10*10mm : 0.4x0.4in
Clamping range	: 0-310mm : 0-12.2in
Shortest length cut of piece	: 30mm : 1.2in
Shortest remnant length individual cut	: 50mm : 2in
Length	: 800mm : 31.5in
Width incl. chip conveyor	: 1600mm : 63in
Height	: 1500mm : 59in
Material Support	: 880mm : 34.6 in
Total Weight	: 500KG : 1102lb
Total Connected Load	: 2.1kw : 2.8 hp
Power of saw motor	: 1.5Kw : 2 hp
Hydraulic motor	: 0.42kw

NAREX INDUSTRIAL MACHINERY L.L.C.

	:0.56hp
Cutting speed infinitely variable with	:20-80m/min :65.6-262.4ft/min
Saw feed Speed	:1-300mm/min :0.04-11.8in/min
Dimensions of saw blade	:2910X27X0.9mm :114.6X1.06X0.03in
